- You are at least 18 years of age;

- You are not located in a jurisdiction where access to these Services is restricted.

Access to the secure user portal is provided exclusively to individuals and entities that have completed a meet-and-greet call or preliminary verification phase with the Arizore team.

4. Nature of Arizore's Services

Arizore's ecosystem also includes marketing-related communications. By engaging with Arizore or submitting information through our forms, you acknowledge that marketing forms part of the broader AZ Reserve ecosystem, and Arizore may provide you with relevant informational or educational content relating to AZ Reserve, provided such communications comply with applicable laws and your communication preferences.

Arizore provides a framework that supports:

- A structured onboarding process for mining projects and institutional bullion providers;
- Submission and assessment of documentation, reports, and verification materials;
- A secure user portal through which Users can monitor application progress;
- Visibility into reserve pathways, including pledged, verified, and delivered resources.

Arizore does **not**:

- Provide or purport to provide financial, investment, tax, or legal advice;
- Provide guarantees that any User will be approved to participate;
- Assure any future appreciation, valuation, liquidity, or performance of tokens or related assets.

All decisions relating to onboarding and acceptance are made at Arizore's sole discretion.

5. Forward Contract Disclosures

Forward contract mechanisms facilitated through the AZ Reserve may involve, depending on project type:

- Submission of geological surveys, business documents, certifications, or audit reports;
- Pledging of in-ground resources, tailings, or vaulted bullion;
- Delivery of refined bullion upon satisfaction of contract terms;
- Verification and compliance checks conducted by qualified third-party specialists.

Forward contract arrangements vary significantly by project. Nothing contained within the Services shall be construed as a commitment by Arizore to enter into, offer, or fulfil a forward contract with any User.

6. Mining and Institutional Participation

6.1 Mining Projects

Mining entities seeking to participate in the AZ Reserve must undergo multi-layered due-diligence, which may include technical review, compliance verification, geological assessment, and project validation. Submission of documentation does not guarantee acceptance.

6.2 Institutions and Bullion Providers

Institutions may sell vaulted bullion into the AZ Reserve through verified transfer pathways. Upon transfer, institutions relinquish ownership of the bullion. Any tokens issued as part of a pathway reflect audited and verified reserve structures and are subject to separate agreements.

Arizore retains full discretion to refuse, delay, or terminate onboarding for any reason, including risk concerns, incomplete documentation, or regulatory conflict.

7. Token Disclosures

Arizore's ecosystem includes asset-backed digital tokens associated with verified reserves of in-ground resources, tailings, or vaulted bullion. These tokens may be characterized as security tokens under various regulatory frameworks.

Important Legal Disclaimers:

- Tokens may experience material price volatility, including loss of value.
- Token value is influenced by reserve composition, macroeconomic factors, and market conditions.
- Arizore does not guarantee liquidity, market access, convertibility, or redemption pathways.
- The existence of a token does not imply rights beyond those expressly documented and contractually provided.
- Token pathways may be restricted or unavailable in certain jurisdictions.

Users acknowledge and agree that participation in tokenized pathways involves inherent risk.

8. No Financial or Investment Advice

All information provided through the Services—including reserve data, documentation, projections, or informational diagrams—is provided strictly for informational purposes and should not be interpreted as:

- Financial or investment advice;
- A solicitation to buy or sell any asset;

Users are solely responsible for obtaining independent financial, legal, tax, accounting, or technical advice.

9. Account Registration and Security

Users granted portal access agree to:

- Provide truthful and complete information during onboarding;
- Maintain the confidentiality of login credentials;
- Not permit unauthorized individuals to access their account;

- Immediately notify Arizore of suspected unauthorized access or breach;
- Accept full responsibility for all activities occurring under their account.
